## Professional Summary

Software Engineering student with strong backend development skills in Java, Spring Boot, Node.js, REST APIs, MySQL, and MongoDB. Experienced in building scalable backend services, secure authentication systems, and database-driven applications. Strong foundation in Data Structures & Algorithms, OOP, DBMS, and software engineering with a passion for designing efficient backend systems.

## Education

**Chitkara University** **August 2023 – Present**
B.E. in Computer Science Engineering | CGPA: 8.55 Punjab

**DAV Public School, Ambala Cantt** **May 2023**
Class XII: 83% Ambala Cantt

**DAV Public School, Ambala Cantt** **May 2021**
Class X: 90% Ambala Cantt

## Technical Skills

**Programming Languages:** Java, JavaScript
**Backend:** Node.js, Express.js, Spring Boot, REST APIs, Microservices, Spring Security (JWT)
**Frontend:** React.js, HTML, CSS, EJS
**Databases:** MySQL, MongoDB, Redis (Caching)
**Cloud & DevOps:** AWS (EC2, S3, RDS, CloudWatch), Docker (Containerization), Kubernetes (Basic), CI/CD
**Development Tools:** Git, GitHub, Git Workflow, Branching, Pull Requests, Postman
**Core Skills:** Data Structures & Algorithms, OOP Concepts, DBMS, Operating Systems, Computer Networks

## Projects

**VaultZero** | *Node.js, Express.js, React.js, Tailwind CSS, PostgreSQL, HMAC, AES Encryption, PBKDF2*

- Built a secure digital vault platform enabling encrypted storage of sensitive files and documents.
- Implemented JWT authentication, email verification, and role-based access control.
- Integrated AES encryption, PBKDF2 hashing, and HMAC verification for end-to-end data protection.
- Developed a responsive React frontend and RESTful backend handling secure file operations.

**CineBook** | *Node.js, Express.js, React.js, MongoDB*

- Developed a full-stack movie ticket booking platform using React.js, Node.js, Express.js, and MongoDB.
- Built REST APIs, asynchronous booking workflows, and optimized seat allocation handling for concurrent booking scenarios.
- Improved frontend-backend integration, debugging workflows, and database structuring.

**CourseHub** | *Spring Boot, Hibernate, Spring Security (JWT), Microservices, RESTful APIs, MySQL, Maven*

- Built a scalable course management platform using Spring Boot, Hibernate, JWT authentication, and microservices architecture.
- Designed RESTful APIs, optimized MySQL queries, and implemented secure backend workflows.
- Applied logging, exception handling, and API testing to improve debugging efficiency and system reliability.

## Achievements

- **GirlScript Summer of Code 2024** – Selected as an Open-Source Contributor and actively contributed to collaborative software projects, gaining hands-on experience with Git, GitHub, and open-source workflows.
- **Hack-N-Snack Hackathon (Unstop)** – Participated in a competitive hackathon, collaborating with peers to solve problems and develop a solution within a time-constrained environment.
- **Open-Source Development** – Gained practical experience with collaborative development practices, version control, code contributions, and working within a team-driven development environment.
